15 August 1961

ANNOUNCEMENTS:

2. The Chairman mentioned that the study on The Strategic Impact of the International Embargo Program on the Sino-Soviet Bloc, being prepared by the Subcommittee on Economic Defense, is proceeding according to schedule. It is anticipated that review of this report by the EIC will be undertaken during the latter part of August so as to meet the requestor's target date of 1 September.

3. EIC-R18-S2, Vulnerability of the East German Economy to Western Countermeasures, will be disseminated shortly, as will the Survey Listing of Internal and External Economic Research Projects on the Sino-Soviet Bloc and on Selected Non-Bloc Areas (EIC-S-36).

EIC-R14-S11, "SINO-SOVIET BLOC ECONOMIC ACTIVITIES IN UNDERDEVELOPED AREAS, 1 JANUARY - 30 JUNE 1961":

4. The EIC reviewed page-by-page the draft report of the Working Group, and a number of modifications and changes were suggested and accepted. After EIC-R14-S11 was approved, the Chairman suggested that in the next issue every effort should be made to keep the coverage of the various recipient countries commensurate with the importance, within the context of the subject of the report, of the developments that have taken place therein. On behalf of the EIC, the Chairman commended the members of the Working Group for their efforts in producing a superior and timely report.

5. Mr. Forrest stated that ICA has had considerable inquiry regarding information on repayment of aid by the recipient countries, and suggested that more attention be given to this matter. After general Committee discussion, the Chairman directed the Working Group to take cognizance of the matter and suggested that, whenever sufficient data become available, an article be prepared for one of the current publications.

15 August 1961

6. The Chairman suggested various ways for shortening or reducing the expenditure of time required for preparing the recapitulation tables in the Statistical Appendix, detailing from 1954 to the present the status of projects initiated through use of Bloc credits and grants to individual underdeveloped countries. It was the consensus of the Committee that these tables are too valuable in their present form to be drastically changed and, after considerable discussion, the Chairman directed the Working Group to explore the feasibility of using mechanization in the processing of this information and of publishing these tables separately a few weeks after the preparation of the Semi-annual.
